Excerpt: .lines. Dimensions of the lot and location of the building on it are also given. An Irregular Plan.--The opposite plan of the Grace Methodist Church which is called a general floor plan, has been given to illustrate the method of laying out an irregular building and to show the indication of stone, brick, structural tile and wood on a plan. It should be noticed first that everything has been located from the central point near the change in direction of the plan and that all main dimensions are given to center lines radiating from this point. Now identify the walls that are entirely of brick, then those of stone with brick backing and then the tile and the frame walls. Check them with the schedule of material on Plate 19. Nothing can or need be shown in detail at this small scale, each door, window,...
