CROSSWAY BOOKS, United Kingdom, 2016. Pamphlet. Book Condition: New. 137 x 89 mm. Language: English . Brand New Book. Did you know . . . ? . . that butterflies taste with their feet? . . that butterflies don t have noses? They smell with their antennae! . . that butterfly wings are covered with tiny scales? Different colored scales make up the pretty patterns we see. . . that butterflies are cold-blooded? The dark colors on their wings help them absorb the heat from the sun. . . that some butterflies wear camouflage? The wings of many butterflies have colors and patterns that blend in with their natural surroundings to protect them from predators. . . that butterflies can see ultraviolet light? Some scales on butterfly wings reflect light that is invisible to humans. Butterflies use these ultraviolet patterns to recognize each other. . . that a butterfly s mouth is like a drinking straw? That s because butterflies only eat liquid foods, like nectars from flowers or fruit. The mouth, called a proboscis, stays rolled up until it s time to eat. . . that a butterfly wasn t always a butterfly? Every butterfly starts as a tiny egg that hatches into a caterpillar. The caterpillar grows and grows until it s time to build a hardened shell around its body, called a chrysalis. While the caterpillar sleeps inside the chrysalis, its body changes and grows new parts. When it comes out, it has become a butterfly, quite a different creature than a caterpillar!AMAZING!Did you know that you can become a new creature, too? You may not grow wings and learn to fly, but God can give you a new life. Do you sometimes do things that make you feel bad inside? Maybe you were mean to someone...
