## A COMMUNICATIONS PROTOCOL IN A SYNCHRONOUS CHAT ENVIRONMENT: STUDENT SATISFACTION IN A WEB-BASED COMPUTER SCIENCE COURSE

Dissertation.Com. Paperback. Book Condition: New. Paperback. 108 pages. Dimensions: 9.2in. x 6.1in. x 0.2in. The effects of a communications protocol in a synchronous on-line chat environment on the satisfaction of students in a Web-based computer science course was studied. Two undergraduate faculty members who teach Web-based courses, and 42 students in four separate computer science courses participated in the study. Students completed a pretest that measured their prior experience, current attitudes, and expectations with regards to synchronous chats in a Web-based course. Two classes of students were introduced to a communications protocol by the instructors that was used throughout the course while in synchronous chat. The other two classes did not use a protocol. A posttest was administered to all students at the end of each course that measured student satisfaction with the synchronous chats held throughout the semester. A communications protocol, in the context of this investigation, is a set of rules or guidelines that are adhered to by all participants while engaged in a synchronous electronic discussion. This study answered the question: What effect does a communications protocol in a synchronous on-line chat environment have on the satisfaction of students in a Web-based computer science course The study showed that the use of a communications protocol in on-line synchronous chats had no effect on student satisfaction with Web-based courses. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
