Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Poultry Laboratory Manual and Note Book Such valuable practice may, in many cases, be furnished at the school under the direct supervision of the instructor. Poultry projects carried on by students at home will give more responsibility and if they are well planned and directed, they will furnish excellent practice. The instructor should supervise home projects from time to time. Following each exercise, blank spaces are left, in order that this book may be used in part as a note book, and the majority of answers and important notations can be made directly in the book while the laboratory work is in progress. Each student using this manual should be provided with a loose-leaf note book of about the same size, in which to make all rough notes, dimensions and miscellaneous facts, and in which to make all mathematical calculations. Such book should be carefully preserved for future reference, or another plan would be to later attach the pages to this manual adjacent to their respective exercises. All final deductions and required facts should be placed neatly in this manual as provided. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
