Excerpt: .The method of procedure in the field must necessarily vary according to the apparatus used and the local conditions of the country. An example of the method used with the slide contact bars can be found in reports on the Yolo and Los Angeles bases in the United States Coast and Geodetic Survey Report for 1882, Appendix 8, and Eeport for 1889, Appendix 10. For the method used with the iced steel bar and 100m steel tapes see Professor Woodward s reports on the Hoi ton and St. Albans bases. In the work of measurement the first measure requires time for drilling all persons in precision and rapidity of.action, and a repetition of the measure can be made in much less time than the first and very probably with more accuracy. The rapidity of measurement conduces to accuracy when movable tripod supports are used, because...
